

## SEEED-ELB112D2P

### PRODUCT DETAILS

Serial CCD Camera brick is compact CCD camera module easy for MCU use. It has integrated image processing DSP to generate 320\*240 or 640\*480 JPEG image, captured picture will be stored in internal buffer and transferred via UART port.

### Features

- Electronic Brick Interface
- JPEG compressed image
- 640x480/320x240 resolution
- Small and compact
- Protocol control
