

DBZ-51~65 Optional Extractor Bits

Time-saving rapid removal! More bits, more possibilities!

DBZ-51~58

- Philips and Hex screws removable in no time
- DBZ-51, DBZ-57 and DBZ-58 require no hammer. Simply press down on the screw & twist it out!!
- DBZ-52, 53, 54 and 56 have a sharp blade that is hammered into the stripped screw recess.

DBZ-62~65

- Press & Twist manually with our original handle grip.
- Allows your own power tool to fix 1/4" hex shank of this extractor.
- Narrow-pitch spiral tip can grip 6 sides of socket firmly without slippage.
- Drill a pilot hole into the screws head to remove different kinds of other screws such as phillips, Torx, square, etc. Then, apply a suitable size of DBZ-62~65 to twist it out.
