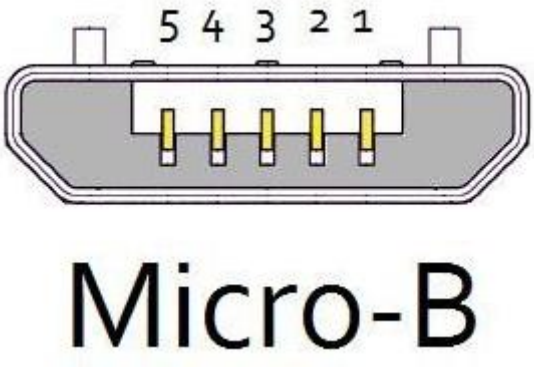
SEEED-321010013

PRODUCT DETAILS

Micro USB cable is commonly found on digital cameras, mobile phones, smart phones and tablets. It can be used to charge, power devices and data sync. Furthermore, micro USB has been applied to more and more open source hardware, such as Arduino Leonardo, Raspberry Pi and Beagle Bone, leading to more common uses of micro USB cable.

Features


- USB A male connector
- USB Micro B male connector
- 100cm in length
