

# SEED-107100000

## PRODUCT DETAILS

This Passive Piezoelectric Type Buzzer is made of plastic, very eye catching colors. It can generate sound over 110DBA(!), so do not make it close to your ears when you test the buzzer. Includes build-in signal generator, just power on 6-12V and it will scream out loud.

Caution: may cause damage to human ears, security use only.

## Specifications

- Rated voltage: 12VDC
- Rated current: 160mA
- Voltage range: 8 - 16VDC
- Maximum power: 12W
- Sound output:  $\geq 110\text{dB}$
- Operating Tem:  $-20^{\circ}\text{C} + 50^{\circ}\text{C}$
- Weight: 80g
